

# Product Teardown

Increase user engagement and retention for the app.

# NETFLIX

Sushant Jha

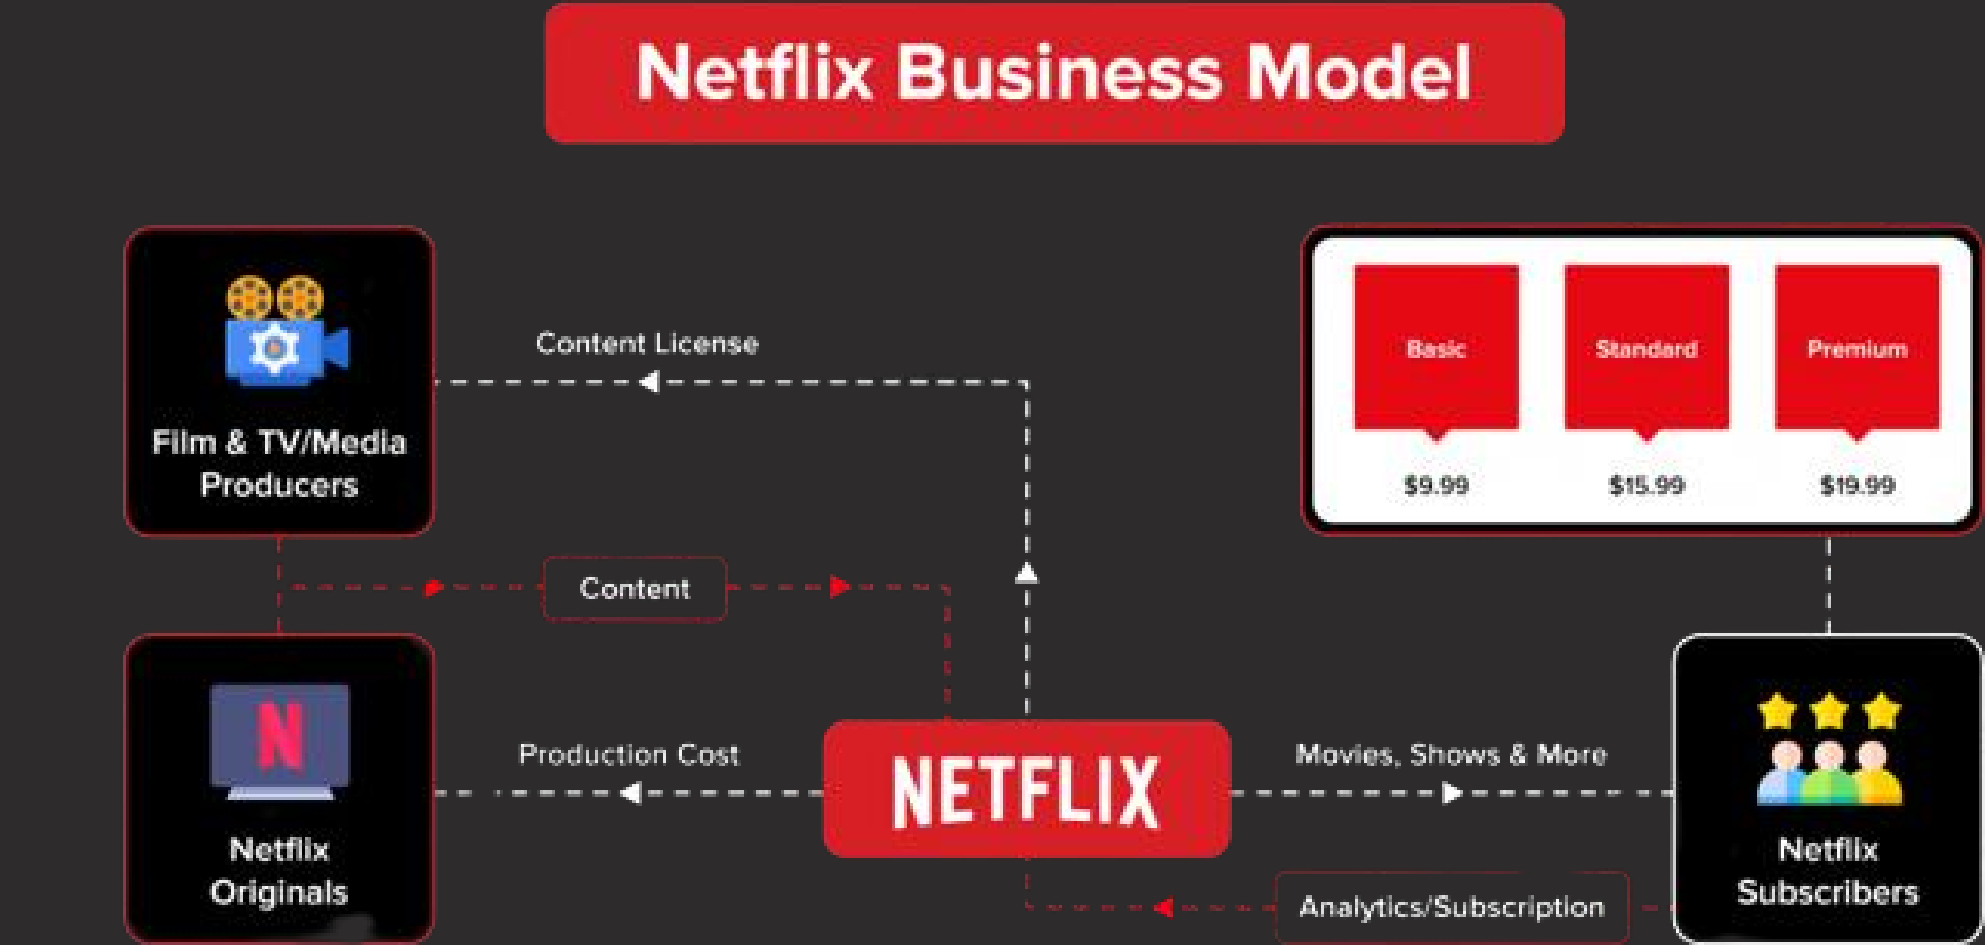

ABOUT:

- Netflix is a leading streaming service offering a vast array of award-winning TV shows, movies, documentaries, anime, and original content on thousands of internet-connected devices, all without ads and for one low monthly price.
- With a focus on user engagement and retention, Netflix provides a seamless onboarding process, and personalized recommendations, and continually updates its library with new content weekly to enhance the viewing experience.

BUSINESS MODEL:

- Netflix primarily operates on a subscription-based revenue model.
- Users pay a recurring monthly fee to access the platform's content library.
- Subscription tiers vary in price based on factors such as the number of concurrent streams and video quality.

HOW DOES NETFLIX EARN REVENUE?

- Monthly Subscriptions:** Users pay a monthly fee to access Netflix's content library.
- Original Content Production:** Revenue from producing and selling original content.
- Licensing Content:** Income from licensing content to other platforms.
- Partnership Deals:** Revenue from legal broadcasting agreements.

MISSION & VISION:

- Netflix aims to entertain the world, offering best-in-class TV series, documentaries, feature films, and games for every taste.
- Members control what and when they watch with a simple subscription, available in over 30 languages and 190 countries.
- Netflix believes great stories can come from anywhere and be loved everywhere, helping viewers find their next favorite story.

USP:

- Exclusive Content Library
  - Over 2,400 titles, including hits like "Stranger Things."
  - Available in 190+ countries with content in 30+ languages.
- Personalization and Accessibility
  - Personalization drives 80% of viewed content for 232.5 million subscribers.
  - Accessible on 1,700+ devices, with 67% of users utilizing offline viewing.

STATISTICS

- Users Worldwide FY2024: 282.68 Million
- Indian Users FY 2023 ~6.5M
- Indian market share ~5%
- Global market share ~16.9%
- Average Content Consumption: 3.2 hours per day
- Revenue Q1 FY2024: \$9.37 Billion
- Gender Division: 41% Male, 59% Female
- Price CAGR India: -9%

★★★★★ 5/28/24

The search function for Netflix is very bad. The movie/show is available on Netflix yet when I search for it, it does not show up. I've got to search on Chrome for the movie and then redirect to the app. Secondly, a lot of movies which are not banned in my region and still are on Netflix aren't available to watch. Thirdly, having half the series or show on Netflix and the other parts on other OTT platform is absurd. If you're getting a show, get it full or don't get it at all.

## EVOLUTION OF NETFLIX

1997

Netflix is founded by  
Reed Hastings & March  
Rudolph.

1998

Netflix started offering  
subscription based DVD  
by email services.

2000

Blockbuster turns down  
Netflix's offer of  
acquisition.

2006

Netflix records 6.3Mn  
subscribers to its DVD  
rental service

2007

Netflix launches direct  
streaming platform with  
a catalog of 1000 movies

2017

Netflix surpasses the  
100Mn subscribers mark  
on its streaming platform

2021

Netflix peaks to a  
valuation of over \$250  
Billion

| Description | A 16-year-old high school student who is passionate about anime. Alex spends most of their free time watching the latest anime series and discussing them with friends online.                                                                                                                                   |               | A 40-year-old software engineer who loves watching movies and TV shows in long sessions. John often binge-watches entire seasons over weekends.                                                                                                                                                                                                                |           | A 28-year-old marketing executive who enjoys relaxing with a good TV show or movie after a long day at work. She often uses streaming services during her daily commute and unwinds with a binge-watching session on weekends.                                                                                                 |                |   |
| Pain Points | <ul style="list-style-type: none"><li>• Limited availability of new and trending anime titles.</li><li>• Difficulty in finding anime with proper subtitles or dubbing.</li><li>• Poor recommendations for new anime shows based on previous viewing history.</li></ul>                                           |               | <ul style="list-style-type: none"><li>• Incomplete series or movies that disappear from the library before John finishes watching.</li><li>• Lack of new content that matches John’s interest in both popular and niche genres.</li><li>• Poor user experience during long binge-watching sessions (e.g., auto-pause, recommendation interruptions).</li></ul> |           | <ul style="list-style-type: none"><li>• Limited time to explore new content due to a busy schedule.</li><li>• Frustration with content buffering or poor streaming quality during commute.</li><li>• Inadequate personalized recommendations that don’t align with her interests.</li></ul>                                    |                |   |
| Need        | <ul style="list-style-type: none"><li>• Access to a vast library of both classic and newly released anime series.</li><li>• Accurate and high-quality subtitles and dubbing options.</li><li>• Improved recommendation algorithms to suggest new anime based on Alex’s viewing habits and preferences.</li></ul> |               | <ul style="list-style-type: none"><li>• Assurance that series and movies will remain available for extended periods.</li><li>• Continuous influx of new content in John’s favorite genres.</li><li>• Enhanced user experience features that cater to binge-watchers, such as customizable autoplay settings and uninterrupted viewing options.</li></ul>       |           | <ul style="list-style-type: none"><li>• Quick and easy access to high-quality, engaging content that suits her limited viewing time.</li><li>• Reliable offline viewing options for uninterrupted streaming during commutes.</li><li>• Better personalized recommendations to discover new shows and movies quickly.</li></ul> |                |   |

Entertainment, shows, Top 3-  
In Entertainment

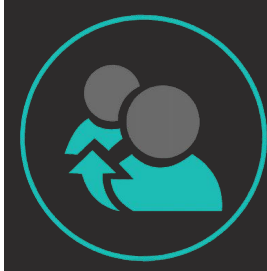

Google search:  
First option for “Entertainment  
sites”

You tube:  
Recommended in almost  
every video

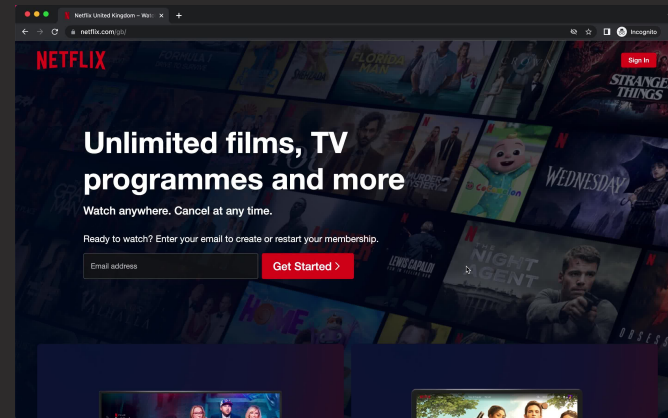

Influencer Marketing:  
Collaboration with multiple  
collaborators and YouTubers

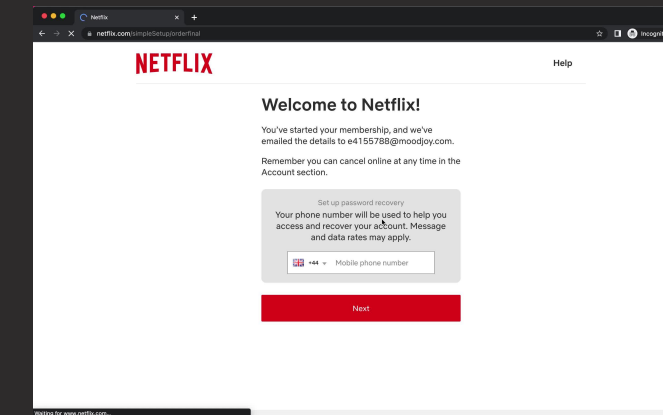

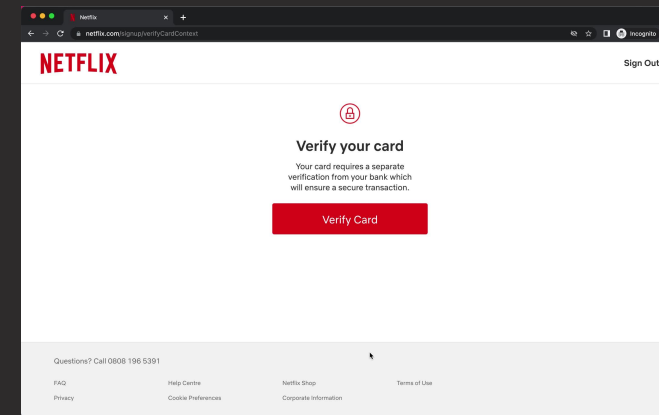

Referral:  
Referral Program of Netflix

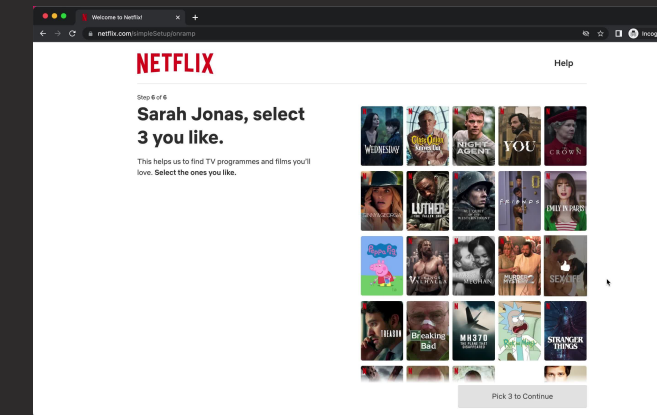

## APP INSTALL AND ONBOARDING

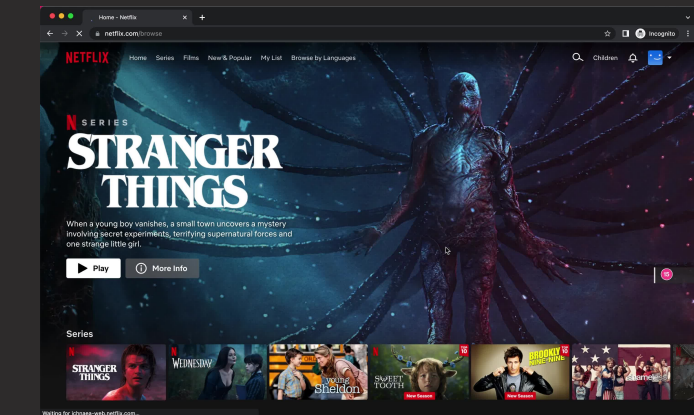

1. Visit the Netflix Website

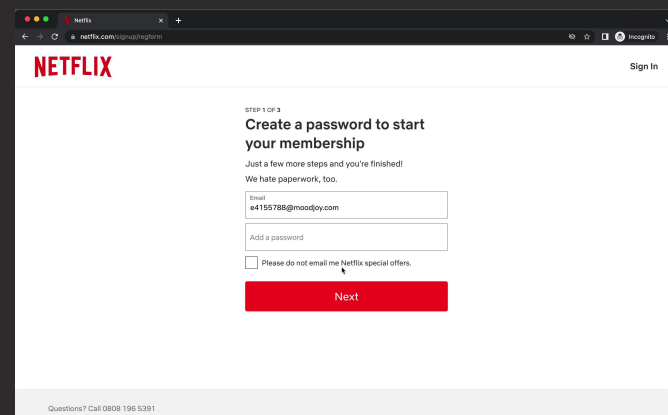

5. Phone Verification

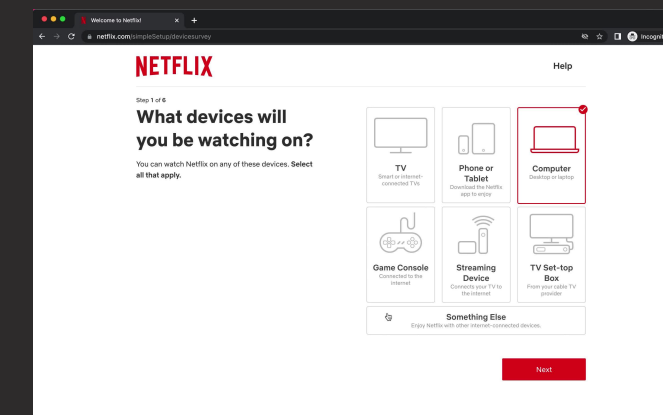

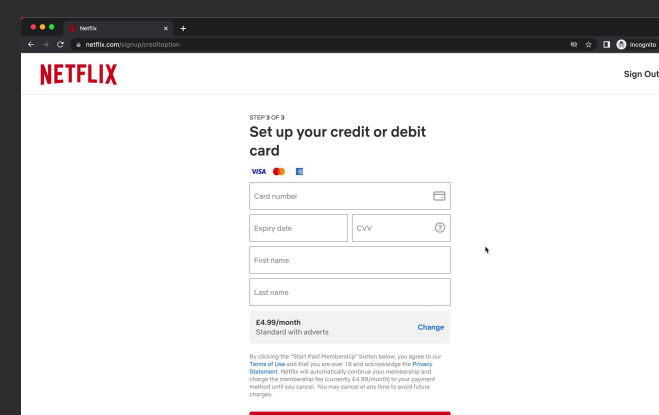

10. Select Interests

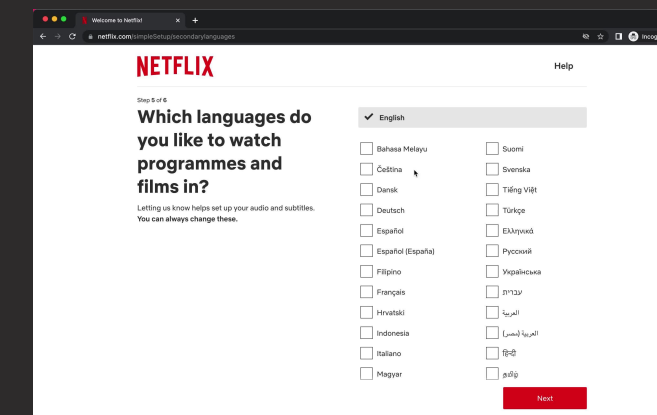

10. Home

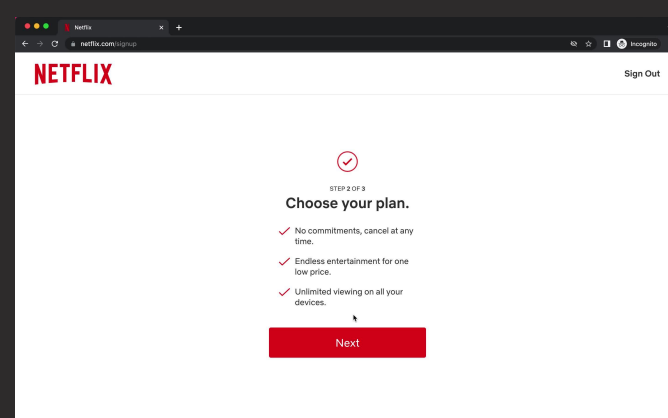

2. Setting up an account

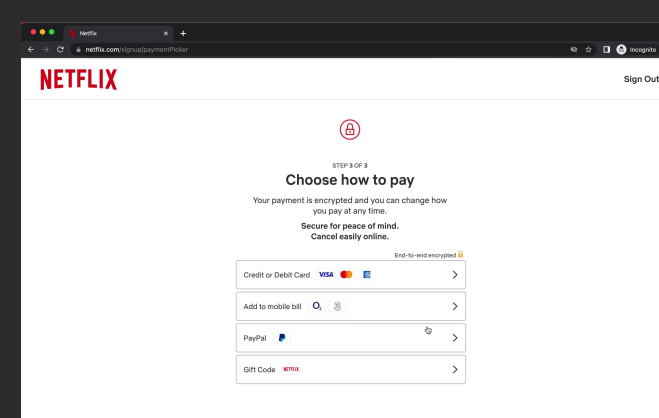

6. Device Selection

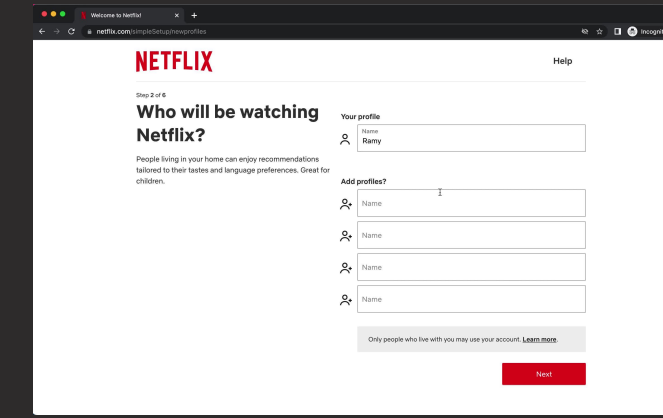

9. Select Language

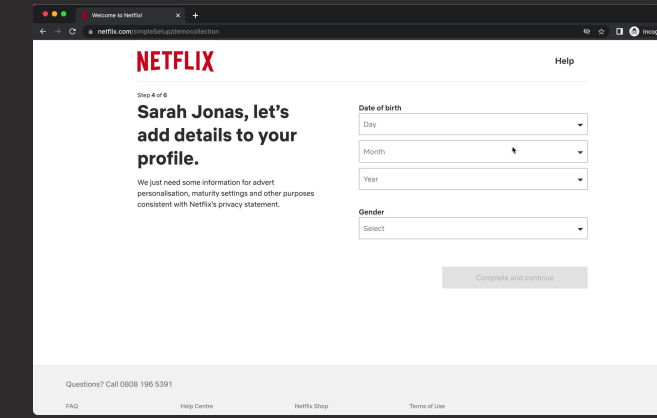

3. Choose a plan

4. Make The Payment

7. Add Profiles

8. Add Details

### Personalized Content Recommendations

- **Enhanced Algorithms:**  
Improve recommendation accuracy using user data.
- **Curated Playlists:**  
Daily/weekly personalized playlists.

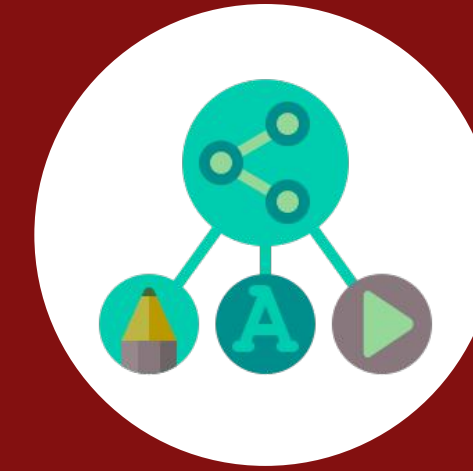

### Interactive and Social Features

- **Watch Parties:**  
Co-viewing with chat and reactions.
- **Social Sharing:**  
Share views, reviews, and recommendations directly.

### Enhanced User Experience

- **Smart Downloads:**  
Auto-downloads for offline viewing.
- **Improved UI/UX:**  
Share views, reviews, and Smoother, more intuitive navigation.
- **Multi-Device Integration:**  
Seamless content transition between devices.

### Exclusive and Interactive Content

- **Interactive Storytelling:**  
User-choice driven storylines.
- **Behind-the-Scenes Content:**  
Exclusive interviews and making-of footage.

### Retention Strategies

- **Flexible Subscriptions**  
Pay-per-view and ad-supported options.
- **Retention Campaigns:**  
Incentives for inactive users, like free previews.
